THE New WESTINGHOUSE

THE One REFRIGERATOR
THAT COMBINES ALL 3
OF THESE REFINEMENTS

Latest convribution of Westinghouse Engineering Genius

MARK up another achievement for Westinghouse...who first harnessed the waters of Niagara and made them light a million homes...who pioneered in radio broadcasting... who brought new ease to housekeeping with Flavor-Zone cooking and the first automatic electric iron!

After twelve years of study...research ... experimentation ... they now score a fresh triumph ... with a NEW Refrigerator.

It is the first, the only refrigerator which offers ALL the refinements considered essential today. A low, flat Buffet-Top for placing dishes on. Broom-High Legs under which one can sweep with ease. A Temperature-Selector to vary the freezing speed.

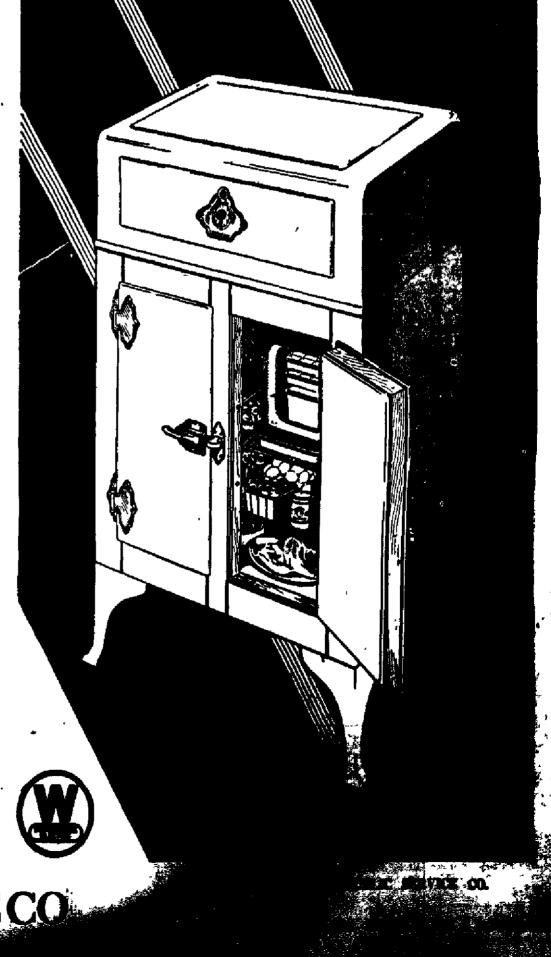

All these refinements are made possible in the new Westing-house by an advanced type of freezing mechanism which incorporates radical mechanical and electrical improvements. Being smaller and lighter, the unit tucks away under the hood, leaving the Buffet-Top clear, permitting Broom-High Legs. Flexibility of control allows the use of the Temperature-Selector with its wider range of freezing speeds.

A remarkable mechanism in every way! It is hermetically, sealed and dust-proof... very much faster freezing.... decidedly more economical in current consumption. And it runs with such a hushed whisper of sound that you almost need a sixth sense to know whether it is operating or still.

Models of the new Westinghouse are on display at our store. Note their beauty. Compare them point by point with other refrigerators . . . and you will be convinced that here at last is just the refrigerator you have been waiting and hoping for.

in the bribery trial there was ever the element of doubt in favor of the occused who testified that the \$100 000 sent by him to the then secretary of the interior Albert B Fall was a loan made to an old time friend of his prospecting days in the West, and not a bribe to accure an oil louse us charged. It was conceivable that \$100,000 meant no more to one or Dobeny's weelth than \$100 to one of ordinary means possibly less than 100 conts to the average man. Dobeny further (estilled that he had artered into the arrange ment to enter into the lesse and turn over royalty oil to the government on the reprecentation made to him that it was his patriotic duty to do so and a high nevel officer had previously admitted that he did make such an appeal to the oil man. The matter had been threshed out proviously in court and before a senate committee and there was a somewhat general feeling that the uged millionaire had been and was being per secuted rather than prosecuted, that he was being hounded for some published or other advantage which might accrue to those respon sible for the crucificion of a multi millionaire

In an event the jury must have believed the veteran oil man and his wife to preference to those arrayed against him for it took but one beliet and that an quantmous one to acquit him

We believe that there is a decidedly gen eral satisfection over the two verdicts. "Now I Feel 100% Better

"People told my mother how cod Lydia E. Pinkham's VegetableCompound was for young girls, so I took it. I used to feel girls, so I rook it. I used to reel miserable at certain times but now I feel 100% better and have gamed a little in weight too. I am only pineteen years old-I do not work but of course I help mother with the house-work. We are both much pleased with the results from the Vegetable Compound and we recommend it to other girls who need it "-Bernice M Murray, 19 Colonial Street, Waterville, Maine.

·What Happens to Your Highways in the Spring?

EARLY spring months are No embargoes nave to be bad for highway travelers placed on normal travel over -except where the roads are roads which are entirely paved paved with concrete.

Freezing and thawing softens the soil. Spring rains, and strong slab of rigid concrete melting snow, turn every duch into a torrent. It's out of the question to keep the roads dry. During certain weeks of

March and April, some states restrict the normal use of CKS upon nighways, surfaced sections of the road from being tora to pieces.

with standard concrete, from town to town. The thick, distributes the pressure of heavy wheels over so much of the underlying soil that its load-bearing capacity is never exceeded.

That's why it pays to build heavy passenger busses and durable concrete pavements over the whole length of main parts of which are inadequately line highways. Traffic then surfaced for such traffic. They need never be stopped to save have to do it to keep these thin- a few weak sections. A modero concrete road is always. ready for business.

Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandroff completely and that is to dissolve it. Then you destrop it entirely.

To do that just get about four ounces of plan, ordinary liquid arron apply it at nght when returning use enough to moisten the scale and rob it in gently with the linger lip.

By morning most if not all of your dandroff will be gone and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it

every single sign and trace of it no matter how much dandruff you may have
You will find too that all itching and digging of the scalp will step you will need. This simple record instantly, and your hair will be
